

Information Day

“Use of underutilized lands for sustainable bioenergy feedstock production – additional income to farmers” in frames of FORBIO project

Date: December 12, 2017

Venue: Kyiv, Ukraine, Volodymyrska str., 55, Section Hall, 2-nd floor.

Goal: To demonstrate the economic efficiency of biomass energy plantations for energy production in Ukraine.

Target audience: agrarian companies, farmers, municipalities, business, state institutions.

AGENDA*

Time	Title of presentation	Speaker
9:00 - 9:30	<i>Registration. Morning coffee</i>	
9:30 – 9:50	State support to bioenergy development	Representative of State Agency of Energy Efficiency and Energy Saving of Ukraine **
9:50 – 10:10	Prospects for creation of biofuels market in Ukraine	Georgii Geletukha, UABio
10:10 – 10:30	Fostering sustainable feedstock production for advanced biofuels on underutilized land in Europe. FORBIO project of Horizon 2020	Tetiana Zheliezna, SEC “Biomass”
10:30 – 10:50	Sustainable exploitation of biomass for bioenergy from marginal lands in Europe. SEEMLA project of Horizon 2020	Oleksandr Ganzhenko, Institute of Bioenergy Crops and Sugar Beet of NAASU
10:50 – 11:10	Results of techno-economic assessment of growing energy crops. FORBIO project of Horizon 2020	Oleksandra Tryboi, SEC “Biomass”
11:10 – 11:40	<i>Coffee break</i>	

11:40 – 12:00	Company results of energy willow growing in Volyn oblast	Iryna Gnap, Salix Energy LLC
12:00 – 12:20	Company results of energy willow growing in Kyiv oblast	Sevastian Trushevskiy, UkrAgroEnergo LLC
12:20 – 12:40	Company results of Miscanthus growing in Kyiv oblast	Oleksandr Kucheruk, Energo Agrar LLC
12:40 – 13:00	The economics of biomass use for heat production	Semen Dragnev, SEC “Biomass”
13:00 – 13:30	<i>Coffee break</i>	
13:30	Closure of the Information Day	

* The Agenda may be amended and supplemented, **Invited

Participation is free of charge with mandatory pre-registration:
